Mr. E. Parke Rohrer
Associated Universities, Inc.
Brookhaven National Laboratory
Upton, New York 11973

Dear Mr. Rohrer:

SUBJECT: CONDUCT OF OPERATIONS CONFORMANCE MATRIX - AGS

The Alternating Gradient Synchrotron Conduct of Operations Conformance Matrix has been reviewed by the Brookhaven Area Office and is approved. It was noted in the review that some performance actions are under development, i.e. the AGS Maintenance Program and AGS Safety Analysis Report. When these programs are completed and instituted, the matrix should be appropriately updated.

If you have any questions, please contact M. Butler (ext.3430) or R. Diem of my staff.

Sincerely,

Frank J. Crescenzo
Deputy Area Manager
